RE: Robert James Ellis

To whom it may concern:

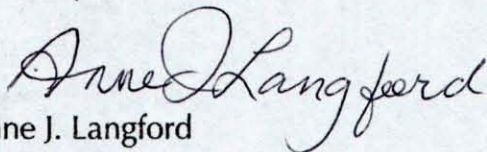

Robert has asked me to review all the materials regarding his assessment and the incident of October 18, 2008, and to comment on any incorrect information. I have done so. To my knowledge, Robert did not have a collection of Japanese swords and/or pirate swords. The sword-like weapon Robert used in the attack was confiscated by the Guelph Police on October 18. Robert also owns a set of kitchen knives, purchased when he first moved into 95B Alice Street.

The other statements to which Robert takes exception are not, in my opinion, inaccurate.

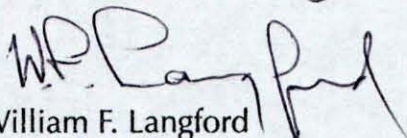

Our major concern is now, as it always has been, that Robert's state that morning was such ~~_____~~

~~_____~~ The Robert that my husband and I know and love is not normally a violent person.

Sincerely,

Anne J. Langford

William F. Langford
